

Royde & Tucker H302 rising butt hinge

These hinges cause the door to SHUT

Rising butt hinge

- 100x77x3mm rising butt hinge
- These hinges cause the door to SHUT
- Maximum adjusted door weight 60kg as standard or up to 80kg (please contact the sales office for advice)
- Minimum door thickness 29mm
- c/w metric 5 x 32mm wood screws
- Radius R5 to LR/RR versions
- To ensure correct working, pairs of rising butts must be fitted co-axially with screws supplied.
- Special door head/frame details may be required to allow the door to rise
- Due to the precision engineering of our rising butt hinges, 3 or even 4 can be used per door leaf, if required
- Unless otherwise stated stainless steel substrate, Grade 316 stainless steel available

Notes:

- These butt hinges are not to be confused with the HI-LOAD range, in that they require regular maintenance. After fitting, the cam faces and pin must be lubricated with grease supplied, following the manufacturer's instructions.
